The call for every window.

When rain, haze or a stadium crowd will meet a class, an event or a commute, Skyclause makes **one approved call**, writes it down, and **grades it the next day**.

BUKIT JALIL · MONDAY 2 NOVEMBER 2026

63 mm of rain in two hours.
89 classes let out into it.

Rain per 5 min, mm. JPS gauge 0232901RF, Sg. Kuyoh di LRT Bukit Jalil.

15:30

89 physical sessions ended at the release wave, inside the heaviest hour. A traffic account listed a flash flood "Bukit Jalil arah Puchong".

NOBODY MADE THE CALL And nobody wrote down what was decided, or why.

• Replay (2 Nov 2026) JPS gauge 0232901RF, 5-minute series captured 5 Nov · APU timetable, one research fetch

THE MINISTRY ASKED · THE CAMPUS HAS NO ANSWER

Watch your local readings.
Then decide alone, with no record.

7 Oct

KPT tells every university to monitor API readings in its own locality. Schools got thresholds. Universities didn't.

KPT instruction, 7 October 2026

0

pages on haze, jerebu, thunderstorm or lightning in APU's public knowledge base.

Searched 5 November 2026

139–174

physical sessions end in each weekday exit wave, 16:30–19:15, straight onto LRT Bukit Jalil.

APU timetable, 2–6 November 2026

TODAY **Students check AirVisual, organisers check Instagram, lecturers switch online ad hoc. Each one decides alone.**

THE RESEARCH WE DID · HOW WE KEEP IT RESPONSIBLE

Every number has a source.
Every notice has a person.

2,269

JPS 5-minute readings stored for gauge 0232901RF, 29 Oct to 5 Nov.

59

stadium surge nights at LRT Bukit Jalil since March 2024, from Rapid Rail gate taps.

508–563

physical sessions a weekday at APU, 2–6 November, from the timetable feed.

CONSENT

Opt-in windows, a PDPA notice and an unticked box. Only the fields a call needs.

THE CAMERA

Points at the skyline, not at people. On probation until labelled.

LIMITS

Not a safety or emergency service. Never excuses attendance.

Feeds re-checked live on 5 Nov 2026 · heavy rain hit 4 of 74 weekday release waves, 29 Oct–4 Nov

FIVE PEOPLE · ONE TRACKER
