APU Cloud Innovation Hackathon 2026 · Intelligent Automation & Digital Transformation

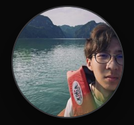

The Call for Every Window.

When rain, haze or a stadium crowd meets a class, event or commute, Skyclause makes **one approved call** and puts it **on the record**.

BUKIT JALIL · STORMS AND HAZE, OCTOBER–NOVEMBER 2026

63 mm of Rain in Two Hours.
89 Sessions Let Out into It.

Rain per 5 min, mm. JPS gauge 0232901RF, Sg. Kuyoh di LRT Bukit Jalil.

STORM · 30 OCT

77.5 mm

in two hours at the same gauge. LRT Bukit Jalil flooded on 6 May.

HAZE · 3 OCT–3 NOV

20 of 31 days

of unhealthy air (API over 100) at the station nearest APU.

HAZE PEAK

190

API at Cheras. Schools must close above 180.

WRITTEN RULES

0

university thresholds, and no APU page on haze or storms.

NOBODY MADE THE CALL

KPT told universities to watch local readings, with no threshold. Each lecturer decides alone. Nobody writes it down.

JPS gauge 0232901RF · DOE APIMS Cheras CA16W · The Star, 8 Oct 2026 · KPT · APU timetable and knowledge base

WHO DECLARES · WHO HEARS · WHO APPROVES

For Anyone with a Window to Protect.

DECLARES WINDOWS

Club and Event Organisers

Outdoor and evening events around Bukit Jalil.

GETS NOTICES

Commuting Students

The 15:30 release wave onto LRT Bukit Jalil.

FIRST PILOT

One Office, One Window

The weekday 15:30 release at LRT Bukit Jalil. A campus office names who approves.

APPROVES

One Person on the Rota

Every notice, first. Lecturers and campus offices next.

THE MOMENT The 15:05 poll sees Lebat rain. 89 sessions end at 15:30. 25 minutes to make the call.

WHAT A CAMPUS SOLUTION NEEDS · WHAT SKYCLAUSE DELIVERS

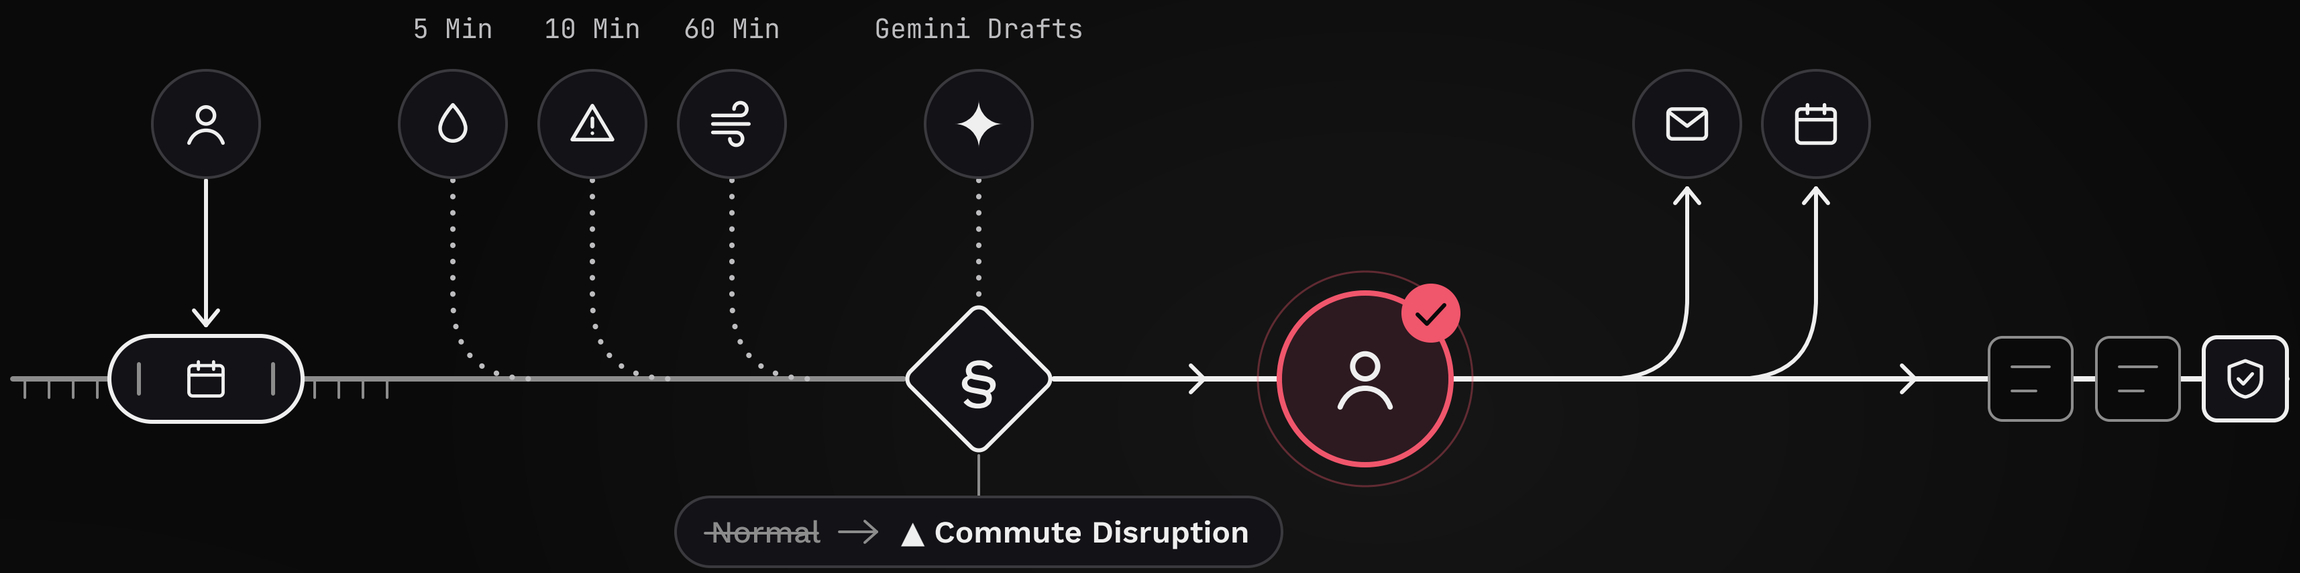

Public Signals In.
One Approved Call Out.

	WHAT IT TAKES	SKYCLAUSE DELIVERS
01	**Impact on Students and Operations**	One approved call per class, event or commute window, before the release wave.
02	**Connectors**	3P in: JPS gauge, MET warnings, DOE APIMS. 1P: Gemini on Vertex AI, Cloud Run. Out: email, ICS calendar.
03	**Research**	2,269 gauge readings stored, a month of haze replayed, every exit wave counted.
04	**Time to Impact**	3 months: calls through the monsoon. 6 months: measured outcomes.
05	**Day-to-Day Workflows**	Feeds polled every 5 to 60 min. One person approves. A stale feed means "No call".
+	**Beyond the Brief**	Gemini drafts, the clause engine checks, every call is sealed in a ledger.
